MPS | Ministry of Public Service
MSMEs | Medium, Small and Micro Enterprises
MTICM | Ministry of Trade and Industry, Cooperatives and Marketing
NAC | National AIDS Commission
NASP | National AIDS Strategic Plan
EXECUTIVE SUMMARY

The Lesotho United Nations Development Assistance Plan (LUNDAP) is a medium-term plan that details the collective contributions of both resident and non-resident United Nations Agencies toward the Government of Lesotho’s five-year development plan, known as the National Strategic Development Plan (2012/13-2016/17), or NSDP. The LUNDAP was developed through a participatory and consultative process and is fully aligned with NSDP priorities.

Lesotho is a small, lower-middle-income country that has made some development progress over the past decade, but remains vulnerable to internal and external shocks. The country has built democratic institutions with good representation of women and has established key policies and legislation conducive to social transformation. Lesotho is on track to achieve Millennium Development Goal targets on primary education and gender equality. However, maternal and child mortality have increased, while the adult HIV/AIDS prevalence has stagnated over the past decade at 23 percent – the world’s third-highest rate. The country currently faces daunting social-economic challenges, as the national economy depends heavily on manufacturing and remittances, both of which have been adversely affected by the recent global economic crisis. Climate change-induced weather conditions and drought are causing serious food insecurity.

The LUNDAP has been formulated to build on the development gains Lesotho has made and harness the United Nations’ comparative advantage to contribute to the government’s NSDP priorities. The UN System will boost the NSDP Growth Generators (Agriculture, Manufacturing, Tourism and Investment climate reforms) by strengthening the capacity of public and private institutions to increase investment, manufacturing, trade and access to financial services. It will also help fortify the agricultural systems to mitigate vulnerability and improve productivity. Furthermore, the UN agencies will contribute to NSDP’s Growth Enablers: to enhance the quality of and expand education services; strengthen governance institutions for improved planning, service delivery and oversight; support efforts to improve access to health services and nutrition; support the response to climate change and environmental challenges; improve systems for social protection; and strengthen the national capacity to prevent and manage HIV/AIDS. In short, the UN System will support the following NSDP priorities:

- Investment climate, manufacturing, trade and financial services
- Agriculture
- Governance and institutions
- Skills and innovation
- Environment, natural resources and climate change
- Health and nutrition
- Social protection
- HIV/AIDS

The Delivering as One approach (DaO) espoused by the UN system in 2009 with support from the Government of Lesotho will be adopted to deliver LUNDAP results. By taking this approach, all participating UN agencies recognize the LUNDAP as One Program,
through which each Agency will make their contribution to the NSDP. The LUNDAP will be jointly coordinated and implemented by the UN Country Program Steering Committee, the Program Management Team, the Operations Management Team and Technical Working Groups. To speak with One Voice, the UN System will enhance its internal and external communication, and promote a consistent, coherent position and image of the UN System in Lesotho. The LUNDAP Results and Resources Matrix provides major elements of the One Budgetary Framework, and a joint resource-mobilization strategy has been developed to address the shortfall of the budget.

A LUNDAP monitoring and evaluation system will be linked to strengthen the NSDP M&E system. The UN Technical Working Groups will work closely with counterparts in national institutions to ensure that LUNDAP results remain clearly aligned with NSDP priorities, among other efforts, through joint planning and reviews with partners.
LUNDAP AGREEMENTS:

United Nations in Lesotho Vision Statement:

Working in partnership for the development, progress, and prosperity of all Basotho.

United Nations in Lesotho Mission Statement

The UN in Lesotho works in partnership with the Government and its partners to fight poverty, strengthen the rule of law, promote human rights and fundamental freedoms, protect the environment and advance economic and social progress for all Basotho. The UN Country Team draws its inspiration from the United Nations Charter and supports the priorities outlined in Lesotho’s National Strategic Development Plan and Vision 2020.

Signatures:

IN WITNESS THEREOF the undersigned, being duly authorized, have signed this LUNDAP on this 14th day of December 2012 in Maseru, Lesotho

Attaher Maiga
FAO Representative

Bizwick Mwale
UNAIDS Country Coordinator

Agi Veres
UNDP Deputy Representative

Lillian Marutle
UNFPA Representative

Ahmed Magan
UNICEF Representative

Imad Osman Salih
WFP Representative

Jacob Mufunda
WHO Representative

Kara Hershey
UN Resident Coordinator
(And on behalf of Non-Resident UN Agencies)

Minister of Development Planning
On behalf of the Government of Lesotho
1. INTRODUCTION

1.1 Background

1. The United Nations Development Assistance Framework (UNDAF) is a common medium-term strategic plan of the United Nations System. It provides a collective, coherent and integrated response by the UN System to contribute to a country’s national priorities and needs – including its development plans and strategies – within the framework of the Millennium Development Goals and other international commitments. The UNDAF is operationalized by an action plan, which anchors the work that UN agencies do within the accountability of frameworks and legal agreements concluded between those UN agencies and the government. The UNDAF also serves as a common budgetary framework for implementing partners and UN agencies, and provides relevant information to donors and other partners.

2. The United Nations Country Team (UNCT) in Lesotho has made a decision to combine the UNDAF and its Action Plan into one operational document. This document has been named Lesotho United Nations Development Assistance Plan (LUNDAP).

3. The UN agencies in Lesotho are committed to strengthen national ownership, leadership and accountability of the development process. To this end, the LUNDAP is fully aligned with the national aspirations articulated in the five-year National Strategic Development Plan (NSDP) of the Government of Lesotho, which covers the period 2012/13-2016/17. Each outcome of the LUNDAP is derived from the NSDP and its strategic priorities.

4. The LUNDAP was developed through a long, extensive consultative process that involved the Government of Lesotho, donors, civil-society organizations and other partners. The situation analysis conducted for the NSDP was likewise utilized as common country analysis for LUNDAP. Cluster working groups that were created to form the NSDP were then applied to outline UN priorities and effectively contribute to NSDP objectives. At each step of the process, quality-assurance mechanisms facilitated the mainstreaming of five UN programming principles: Human Rights; Gender Equality; Environmental Sustainability; Capacity Development; and Results-Based Management.

5. The basis for setting priorities was: the situation-analysis conducted for the NSDP; evaluation of the previous UNDAF; and the Stakeholder Analysis.

6. The LUNDAP is also guided by the UN System’s comparative advantage, which is uniquely characterized by: universality and impartiality; advocacy for people-centered and rights-based development policies and strategies; presentation and adherence to international standards and practices, greater social equity; the capacity to facilitate between internal and external parties; support for peace and security initiatives; and access to universal and regional databanks, as well as technical expertise.

7. In Lesotho, the UN system has effectively leveraged this comparative advantage over the years, as it: developed skills using a pool of international, regional, and in-country expertise; facilitated dialogue among political groups; enhanced advocacy for marginalized groups within a population numbering fewer than 2 million; responded swiftly to emergency humanitarian needs; facilitated development of policies, plans and frameworks; and increased the knowledge-base for informed policy-making.

8. The UN System proposes to deliver 10 outcome areas within this LUNDAP, which are
closely aligned with the MDGs – and with five of six of Lesotho's NSDP priorities. The eight LUNDAP Clusters will manage and coordinate these outcomes.

1.2 Delivering as One in Lesotho

9. The changing environment of world aid presents a new challenge for the UN System to carry out its development efforts. In response, the United Nations launched the “Delivering
as One” (DaO) initiative, globally, to test how the UN family can provide development assistance in a more coordinated way. In December 2009, the UN System in Lesotho adopted the DaO approach with emphasis on five principles: One Office, One Program, One Budgetary Framework, One Leader, and One Voice.

10. One Office: Taking advantage of the existing UN House in Maseru, the capital of Lesotho, the One Office principle has simultaneously united agencies through a common mission, and harmonized and simplified some business processes and common services. Through this LUNDAP, the UN System will increasingly cluster together the operational activities of UN agencies to both reduce operational costs and become more effective and efficient when delivering programs. The One Office principle will decrease transaction costs and produce savings, which will be re-invested in programmatic development work.

11. One Programme: Through the revision of the UNDAF and formulation of its Action Plan in 2009 to form a “One Program”, the UN System in Lesotho brought together all members of the country-team within one nationally owned strategy – and drew on the full range of UN expertise. This LUNDAP will augment the achievements made under this principle in the previous UNDAF, then take it one step further, as closer cooperation will produce even better results.

12. One Budgetary Framework: The UNDAF revised in 2009 integrated the One Budgetary Framework principle. The UN agencies prepared one financial framework to show each agency’s planned input, together with the funding source. A “One Fund” was established for extra resources the UN System had jointly mobilised. This has led to increased transparency of the UN investment in Lesotho; identified the funding gaps, and facilitated resource mobilisation, allocation and reporting. This principle will reign throughout the current LUNDAP period, from 2013-2017.

13. One Leader: This principle empowered the Resident Coordinator to: provide strategic leadership throughout the development-programming process; develop synergy between various UN “assets”; and link the UN entities with their respective mandates.

14. One Voice: This principle has led to increased transparency and visibility of UN-supported initiatives. The UN Communications Group has spearheaded the vital need to communicate ‘as one’ UN-Lesotho activities and policy positions.

15. The “Delivering as One” approach will continue to guide implementation of this LUNDAP. It will provide a real opportunity for further progress as the UN System articulates and demonstrates its strategic role toward achieving the development outcomes that Lesotho’s NSDP, sectoral plans, and frameworks have outlined.

2. PARTNERSHIP, VALUES AND PRINCIPLES

2.1 Partnership

16. The LUNDAP defines mutual cooperation between the Government of Lesotho and the UN System for the period 2013–2017. Together, the UN Country Team and the Ministry of Development Planning (MODP) coordinate LUNDAP implementation. All relevant Government ministries are partners in the planned LUNDAP activities, as are all relevant NGOs. The partnerships also extend to the bilateral and multi-lateral donors who have organized their activities around the National Strategic Development Plan and Vision 2020, which will ensure that development efforts are aligned and harmonized.
17. Whereas the Government of Lesotho (hereinafter referred to as “the Government”) has entered into the following:

a) With the United Nations Development Programme (UNDP), a Standard Basic Assistance Agreement (SBAA) was signed by UNDP and the Government on 31st December 1974. This LUNDAP, together with Annual Work Plans concluded hereunder (which shall form part of this LUNDAP, and incorporated herein by reference), constitute the project document as referred to in the 1974 SBAA;

b) With the United Nations Children’s Fund (UNICEF), a Basic Cooperation Agreement was concluded between the Government and UNICEF on 30 November 1994;

c) With the United Nations Population Fund (UNFPA), an exchange of letters dated 30 March 2010 stated that the 1974 SBAA signed by UNDP and the Government be effectively applied, mutatis mutandis, to UNFPA.

d) With the World Food Programme (WFP), a Basic Agreement concerning assistance was signed by the Government and WFP on 11 November 1968;

e) With the Food and Agriculture Organization of the United Nations (FAO), an agreement was signed for the establishment of the FAO Representation in Lesotho on 25 May 1981;

f) With the World Health Organization (WHO), the Government of Lesotho and WHO signed an agreement on 11th December 1967.

g) With other resident and non-resident agencies, the signed agreements for establishment of their representation in Lesotho;

h) The LUNDAP will, in respect to each UN System Agencies signing, be read, interpreted, and implemented in accordance with, and in a manner consistent with, the basic agreement between such United Nations System Agency and the Government.

18. Both Resident UN agencies and offices (FAO, UNAIDS, UNDP, UNFPA, UNICEF, WFP, WHO) and non-resident UN agencies (ILO, IFAD, UNCTAD, UN Habitat, ITC, UNESCO, UNCDF, UNIDO) collaborate toward achieving the overall LUNDAP.

19. A range of Implementing Partners – Government agencies, research institutions, and civil-society organisations at all levels – will implement UN-supported interventions.

20. The UN will pursue partnership and engagement with the private sector to not only advance the development outcomes laid out in the LUNDAP, but to foster corporate social responsibility within a collective effort to support inclusive development of Lesotho. Likewise, the UN will seek strategic engagement with civil society to achieve these goals.

2.2. Values and principles

21. Overall, the UN Charter, Universal Declaration of Human Rights, and relevant UN conventions guide all UN efforts in Lesotho. The LUNDAP subscribes fully to the principles of UN reform and its implications at the country level, as prescribed in the 2003 Rome Declaration on Harmonization, the 2005 Paris Declaration on Aid Effectiveness, and the Doha Financing for Development Review Conference outcome document. UN Agencies will promote national ownership and leadership, plus the need to: harmonize and simplify procedures and guidelines, increase use of national systems, and enhance accountability of all parties. The Government and UN will work jointly to develop capacity at the national and local levels. All UN agencies, including those Non-Resident, will subscribe to the LUNDAP.

22. The Code of Conduct detailed in this document’s Annex defines the principles to guide and harmonize relations among UN agencies, between the UN Agencies and the Government, and among all partners.
3. OVERVIEW OF LESOTHO DEVELOPMENT CONTEXT

3.1. Overview

23. Lesotho is a small, mountainous country surrounded by the Republic of South Africa. And, unusually for sub-Saharan Africa, almost a purely mono-ethnic, mono-linguistic society – as the historic homeland of the Basotho people. The country's total population is estimated at 1.89 million (52 percent female), with a low annual growth rate of 0.08 percent that is projected to increase by 0.13 percent each year up to 2020. Three-quarters of the population lives in rural, rugged areas, but urbanization is on the rise at a rate of 3.8 percent per annum. The country is vulnerable to disasters, particularly floods and drought, food insecurity and disease outbreaks. Vulnerability to natural hazards is aggravated by chronic food insecurity, low agricultural productivity, poverty, malnutrition, and the impact of HIV and AIDS.

24. Lesotho is a small open economy, with modest growth, limited economic diversification, and limited resilience to negative shocks. Despite per-capita income of roughly US$1,040, more than half the population lives below the poverty line, unemployment levels have peaked at 29 percent, and wealth inequalities are high: the Gini Coefficient is 0.52. Lesotho ranks 160th out of 187 countries on the 2011 human development index.

3.2 Cluster Analysis of Lesotho’s Development context

Cluster 1: Investment Climate, Manufacturing and Trade and financial services

25. Lesotho is ranked as low as 143 out of 183 countries on the World Bank Doing Business Indicators (2012), implying relatively poor investment climate. The financial-services sector is relatively small and underdeveloped, consisting of four commercial banks, seven insurance companies, two asset managers, money-lenders and credit-only institutions, and financial cooperatives.

26. External trade has increased phenomenally with the growth of the manufacturing sector; in recent years, diamond exports have improved the trade balance. In 1999, exports of goods covered 21 percent of imports, but a decade later, the ratio improved significantly to 53 percent. South Africa is still the main trading partner. Until recently, Lesotho was number one in Sub-Saharan Africa in terms of volume and value of exports to the US market, thanks to concessions offered by the African Growth and Opportunities Act (AGOA).

27. Employment in the Manufacturing Sector has increased dramatically over the past six years. In 2010-11, manufacturing contributed exports of 1,375 million Maluti to Southern African Customs Union (SACU), and M 2,781 million to the rest of the world (mostly textiles under AGOA). Contribution to GDP was as high as 21 percent in the early 1990s, but declined to around 17 percent with the global economic meltdown and increasing importance of mining to the economy. However, the sector is severely affected by inadequate industrial infrastructural long lead times, high cost of exporting, erosion of preferences over time, insufficient backward integration, and limited product and market diversification.

28. There are about 100,000 Medium, Small and Micro Enterprises (MSMEs) operating in Lesotho, mostly in the informal sector estimated to employ more than 300,000 people, including in subsistence agriculture. Slow growth and low survival of MSMEs are attributed to inadequacies in technical, management and entrepreneurial skills, which affect competitiveness, poor infrastructure and regulatory framework, as well as limit access to finance, markets and information.
Cluster 2: Agriculture

29. The agricultural contribution to GDP has declined over time, from around 20 percent in the 1980s to some 7 percent in recent years. This decline is attributed to two main factors: the growth of other sectors (notably manufacturing and mining), and agricultural sector's own declining performance and output. Despite its declining contribution to GDP, agriculture remains a crucial sector for generating income and sustaining rural livelihoods. Currently, about 70 per cent of the annual cereal requirement in Lesotho is imported, mainly from South Africa. The high level of imports suggests that Lesotho faces a supply-side, not demand-side, problem. Constraints in agricultural production include depleted soils; underutilized water resources; limited irrigation and use of fertilizers, pesticides and improved seeds; weak extension systems; inferior marketing infrastructure; poor access to markets for small producers; and unsuitable land tenure system and practices.

30. Lesotho has a highly variable climate with risks to agriculture that include: erratic rainfall, with recurrent droughts, occasional flooding, late onset of rainfall and prolonged mid-season dry spells; frequent and severe hailstorms; and seasonal bouts of snow and frost. Because the overwhelming majority of agriculture in Lesotho is rain-fed, it's extremely vulnerable to variable rainfall. Three-quarters of the population resides in rural areas, which makes them largely dependent on agriculture for their livelihood. Many subsistence farmers – and the families they feed – are thus exposed and vulnerable to these whims of weather. Other factors that undermine food security at the household level include low incomes, poor health, high and variable food prices, lack of diverse income strategies, and weak social-support networks due to the ravages of HIV&AIDS.

31. Agricultural performance is further constrained by a lack of funding. The past few years have seen a major decline in the share of agriculture in the overall national budget. The reduced funding for agricultural programme seriously compromises the delivery services to farming communities, which are critical for transferring technical knowledge and innovation to rural farming households who have limited access to knowledge resources. The other aspect that Lesotho's farming community has yet to master is how to deal with competition from South Africa, with its greater economies of scales. Lesotho needs to find niche products for which it has comparative and competitive advantage over its neighbour.

Cluster 3: Governance and Institutions

32. Lesotho is a relatively young and stable democracy, with a relatively well-developed political machinery and institutional infrastructure. The country has made some progress over the past decade towards its national vision of stable democracy and a united and prosperous nation and went through a democratic transition at the 2012 national elections. Lesotho built democratic ["if lethargic"] institutions – with impressive representation of women in politics and ministry posts. Notably, it also established key policies and legislation for a conducive environment to transform society, and embarked on public-sector reform to enhance institutional effectiveness. It also largely overcame the disputes from the 2007 elections through dialogue, culminating in the adoption of an improved electoral law.

33. Governance institutions, however, are not optimized and lack capacity to deliver services to the satisfaction of all citizens. Service-delivery remains highly centralized, with accountability mechanisms not fully functional and the weak capacity of non-state actors. The potential remains for conflict spawned by political and social instability. While the authorities have created an environment of policies and regulations, they are not evidence-based. The country also lacks capacities to implement them. For policymakers, data neither
fully accessible by policymakers, nor well disaggregated. What exists is then packaged to ineffectually to guide the best possible decision-making.

34. Lesotho is on track to achieve both gender equality and women's-empowerment targets of Millennium Development Goal No. 3. However, the patriarchal system and socio-cultural norms and practices entrenched in Basotho society marginalize women in many ways. While the 2006 Legal Capacity of Married Persons Act repealed many discriminatory provisions, though in reality women are still restricted from independent decision-making – especially with regard to negotiating safe sex. Nevertheless, women currently hold 47 per cent of local government positions and 23 per cent of public-sector positions. In short, Lesotho remains a patriarchal society, as change in socio-cultural norms lag behind legal developments and international trends.

Cluster 4: Skills and Innovation

35. Lesotho has abundant labour, with over 60 per cent of the population of working age. Literacy rates are also high, at 85 per cent. However, the country is still saddled by relatively low productivity and limited technical skills to perform skilled blue-collar jobs in leading sectors. If Lesotho is to benefit more from its “demographic bonus” of a large young labour force, then skills must be raised.

36. Lesotho is on track to achieve its MDG targets on education. The 2010 Education Act made primary education free and compulsory. However, serious challenges continue to face the sector, including the high percentage of unqualified teachers – around 40 per cent since 2008 – combined with a low net-enrolment ratio in primary education since then that has also stagnated at 80 per cent. Schools have incorporate feeding programs, which helps attract and retain more children. The government’s introduction of free primary education has also spurred increases in enrolment and attendance in the lower primary grades. However, repetition rates are high, with 22 percent of schoolchildren repeating primary education, especially in the early years. An estimated 15 percent of school-aged children, mostly boys, are not enrolled in school. Even with free education, many poor households cannot meet associated costs. Pre-school enrolment coverage is only 33 percent, with net enrolment rates of 16 percent for girls and 7 percent for boys.

Cluster 5: Environment, Natural Resources and Climate Change

37. Lesotho enjoys a low-carbon footprint and is a rare shining example of a country with renewable-energy solutions. However, its topography renders it very vulnerable to natural disasters (floods and droughts), exacerbated by shifting precipitation patterns that are compelling evidence of climate change. This has serious implications for agro-ecological conditions, as the growing season is pushed forward and shortened, and agricultural production is limited to one cropping season. This threatens livelihoods and food security.

38. Increased land degradation and access – more than 70 per cent of the population relies on less than 10 per cent of arable land – creates high dependency on food imports. Limited mainstreaming of environmental considerations into cross-sectoral policies, coupled with limited progress on national climate-change policy, prevents the country from following an environmentally sustainable, more resilient path toward development. Climate-change models indicate that Lesotho will in the future experience higher temperatures and even more erratic rainfall patterns.
Cluster 6: Health and Nutrition

39. Lesotho is off track for hitting its MDG targets on maternal and child health. Disturbingly, the under-five mortality rate has increased from 90 per 1,000 live births in 1996, to 117 per 1,000 in 2009. This is mainly due to neonatal conditions (48 per cent), AIDS (17 per cent), pneumonia (13 per cent), and diarrhoea (10 per cent). Under-five mortality is 19 per cent higher in rural areas than urban areas. Children in poor households suffer a 30 per cent higher mortality rate compared to children in wealthier households.

40. Stunting levels have stagnated at 39 per cent since 2004. Stunting is higher among children from poor households, especially those in remote mountain districts – reaching 52 per cent in Thaba Tseka district. The immediate causes of stunting are inadequate diet due to food insecurity, poor feeding practices, and recurrent childhood illnesses.

41. Maternal Mortality Ratio has increased from 762 per 100,000 live births in 2004 to 1,155 in 2009. Fifty-nine per cent of maternal deaths in Lesotho are HIV/AIDS-related. Other causes of maternal death are puerperal sepsis and complications from abortion. Though the rate of attending antenatal care is high (91 per cent), skilled birth attendance (62 per cent) and postnatal care (47 per cent) remain low, particularly among the poorest and most rural.

42. The underlying causes of worsening maternal and child health are: a health system weakened by human-resource shortages, and the high prevalence of childhood illnesses associated with poor nutrition and sanitation. There is strong political commitment to scale up successful interventions, and the health-sector budget constitutes about 11 percent of the national budget. Nationwide coverage of health facilities has improved markedly in recent years, with many facilities constructed or renovated with support from the Millennium Challenge Corporation. A new national referral hospital – with three filter clinics – has been built in Maseru under a Private-Public Partnership.

Cluster 7: Social Protection

43. The threat of HIV and poverty increasingly exposes children to those who would violate their protection rights. The 2011 Situation Analysis of Orphans and Other Vulnerable Children estimates that a stunning 34 percent of all children in Lesotho (363,526) are orphans – having lost one or both parents – which represents a sharp increase from the 1996 Population Census figure (221,403). The study confirms the high prevalence of physical and sexual violence, as indicated by the sizable number of cases reported to the Child and Gender Protection Unit and the Child Help Line. The 2009 DHS also reports 34 per cent of all children are not living with either of their parents, largely because of their death or migration to find work in other parts of Lesotho, next door in South Africa, or elsewhere in the world.

Cluster 8: HIV and AIDS

44. The persistently high HIV prevalence, stagnating at 23 percent in the adult population over the past decade, remains the most significant threat to Lesotho’s development. Women and adolescent girls are disproportionately affected: prevalence among young women aged 20-24 (24.1 percent) is six times higher than prevalence among adolescent girls aged 15-19 (4.1 percent) and four times higher than prevalence among young men aged 20-24 (5.9 percent). The immediate drivers of the epidemic include: multiple and concurrent sexual partnerships; low levels of consistent and correct condom use; and low levels of medical male circumcision. These drivers are further exacerbated by inequality in gender relations,
cultural norms and practices, and limited social mobilization around HIV prevention. Nationally, Lesotho has made advances to prevent mother-to-child transmission, and nearly four-fifths of HIV-positive pregnant women receive antiretroviral drugs. Only half of HIV-infected children and adults are on antiretroviral treatment, and insufficient progress has been made in primary prevention, particularly among young adults – even in the capital, Maseru, which has greater access to HIV materials.

4. PROGRAMME ACTIONS AND IMPLEMENTATION STRATEGIES

45. The LUNDAP has been designed to be the reference document for any UN agency to derive its work-plans for the 2013-2017 period. LUNDAP should also enable the emergence of more joint programs that involve two or more UN agencies. The diagram below depicts the process of how LUNDAP will help guide the design of agency-specific Annual Work Plans.

46. The LUNDAP has ten interlinked outcomes, which contribute to five of six NSDP priorities: High, shared and employment generating growth; Enhance skills base, technology adoption and foundation for innovation; Improve health, combat HIV/AIDS and reduce vulnerability; Reverse environmental degradation and adapt to climate change; Promote peace, demographic governance, and effective institutions. The Results and Resources Matrix in the Annex elaborates what each UN Agency will contribute to achieving these outcomes, with the anticipated outputs, key actions and associated resources.

47. **Outcome 1: By 2017, public and private institutions promote increased investments, manufacturing, trade and financial services and create decent employment in an inclusive and sustainable manner.** Under this outcome, the UN System will help: increase the capacity of industry and commercial operators to provide decent employment opportunities – particularly for women and youth – in the manufacturing, trade and service industries; enhance regional and national trade development, and facilitate it through increased private-sector competitiveness; and expand the scale and scope of access to financial services in
rural and urban areas, particularly for women and youth.

48. UN Agencies involved in delivery of this outcome include: IFAD, ITC, UNDP, UNCDF, UNECA, UNCTAD, UNCTRAL, UNIDO and ILO. National partners include: MTICM, MODP, MOF, MGYSR, MOLE, Public Works and Transport, MST, MAFS, MOA, LCCI, LNDC, Banks, and Private Sector Labour federations.

49. **Outcome 2:** By 2017, National institutions (public and private) deliver quality services for increased agricultural growth and food security. For its part, the UN System will: support national institutions and farmer organisations that respond to risks threatening agriculture-dependent households; help strengthen agricultural policies toward commercialization; and widen the capacity for agricultural research, extension and education services.

50. UN Agencies under this outcome will be: FAO, WFP and IFAD. National partners include: MAFS, DMA, BOS, MOLG, LMS, MTICM, MFLR, MFLR, Department of Marketing, the Ministry of Tourism, and the Tourism Board Hotel Association.

51. **Outcome 3:** By 2017, national and local governance structures deliver quality and accessible services to all citizens respecting the protection of human rights & access to justice, and peaceful resolution of conflict. Under this outcome, UN agencies will help strengthen the capacity of governance institutions and enable them to exercise their oversight and legislative functions – and improve service delivery. The UN System will also: support decentralization; strengthen structures that respect, protect and fulfill human rights; and enhance capacity of national institutions, including the justice system, to promote gender equality, reduce sexual and gender-based violence, and exploitation of women and children.

52. UN Agencies contributing to this outcome will be: UNDP, ILO, UNICEF and UNFPA. National partners include: IEC, LCN, CSOs, Parliament, Ombudsman, MODP, MPS, MOJHRC, MOHA, MOH, MOLCA, MOLGC, DCEO, MGYSR, MOET, MOJHR, Private sector, and Workers.

53. **Outcome 4:** By 2017, national and lower-level institutions make evidence-based policy decisions. The UN system will support national statistical systems to produce timely, reliable and relevant data for evidence-based polices and plans. It will also help develop capacity of national institutions, to enable them to formulate and review these evidence-based policies and plans. Likewise, it will help boost national M&E data-collection, quality, use and reporting; support establishment of research and knowledge-management systems and mechanisms; support the establishment of functional, effective national and district coordination and management structures (like HIV and AIDS fora); and develop the capacity of key stakeholders to mainstream HIV and AIDS services within all sectors.

54. UN Agencies engaged to deliver this outcome include: UNDP, UNFPA, UNAIDS, WHO and ILO. National partners include: BOS, MOH, DMA, NAC, MODP, MOLE, MGYSR, LENASO, LCN, and LENEPWA.

55. **Outcome 5:** By 2017, learners at ECCD and Primary levels have equitable access to quality and relevant education. The UN System will support that the most vulnerable and disadvantaged children in four selected districts benefit from the expanded and improved quality of IE CCD programs; the capacity-building of government to coordinate, plan, implement, monitor and ensure that a quality, basic and targeted non-formal education is provided to all children; and that more university graduates have access to quality programmes in business leadership.

---

1 Refer to the List of Acronyms.
56. UN Agencies that deliver this outcome will be: UNICEF, WFP, UNESCO, ITC, UNCTAD, WTO and UNV. National partners include: MOH, MOET, MOAFS, LCE, NUL, BEDCO, LNDC LCCI and Civil Society.

57. **Outcome 6:** By 2017, Lesotho adopts environmental management practices that promote a low-carbon climate-resilient economy and society, sustainably manages natural resources and reduces vulnerability to disasters. Toward this, the UN System will help Lesotho: increase capacity of government and civil-society institutions to integrate climate change into policies, planning frameworks, budgets and implementation strategies; deploy and demonstrate innovative low-greenhouse gas technologies at the community level, community centres and schools; improve coordination of national and local governance of environment, climate change and natural-resource management; improve private-sector knowledge of environmental solutions along the value chain; increase capacity of government and community groups in selected areas to implement sustainable land-management models that incorporate sustainable, environment-friendly income-generating activities; increase capacity of Land Use, Physical and Maseru City Council Planning Departments for effective land management and urban-settlement planning; improve coordination of disaster-risk reduction, disaster-prevention and response; and encourage community participation to protect the environment and conserve natural resources.

58. UN Agencies that will deliver this outcome include: UNDP, WHO, WFP, UNICEF, FAO, UN Habitat, ITC, and UNEP. National partners include: MNR, MFDP, METC, MFLR, MAFS, MLGC, DMA, NUL, MTEC, MBC, LCN and other CSOs.

59. **Outcome 7:** By 2017 equitable access to and utilization of high-impact, cost effective health and nutrition interventions achieved for vulnerable populations. To realise this, UN agencies will strengthen the capacity of: the health institutions at all levels, including supply-chain management and the human resources that deliver integrated, child-survival interventions; systems that promote healthy behavior; sexual- and reproductive-health services at all levels, with emphasis on maternal and new-born healthcare; district-level administration, health facilities, and communities to improve maternal nutrition, child-feeding practices and quality, integrated management of acute-malnutrition services; 10 community councils to promote safe hygiene and basic sanitation practices; health and nutrition managers at the central and district levels to undertake evidence-based planning, budgeting, monitoring and evaluation, to deliver quality, effective services; and the health sector at the central and district levels, in order to plan and implement disaster risk-reduction plans.

60. UN Partners engaged to deliver this outcome are: WHO UNICEF, UNFPA and WFP. National partners include: MOH, MLGC, FNCO, MAFS, NUL, DMA, Department of Water, and CSOs.

61. **Outcome 8:** By 2017 vulnerable groups have access to adequate and effectively managed (HIV-AIDS, Child and Gender sensitive) social protection system. The UN System will help: improve the policy and legal environment for HIV/AIDS, child and gender-sensitive social protection; strengthen the capacity-development of relevant institutions, at various levels, to deliver effective protection, care and support to vulnerable groups – especially women and children; facilitate the autonomous implementation of Child Grants Programme (CGP); and review and implement strategic and operational plans, policies and services for Most Vulnerable Children (MVC) like cash transfers and food aid.

62. UN Agencies involved with this outcome will be: WFP, UNDP, and UNICEF. National partners include: MOH, MOLE and CSOs.

63. **Outcome 9:** By 2017, multi-stakeholders in the country contribute to the reduction of new
annual HIV infections especially among youth, children and adults. The UN System will support: districts that establish functional coordination and referral mechanisms that prevent HIV among young people; implementation of social and behaviour-change interventions for young people; operationalization of comprehensive condom programs that focus on young people; the scale-up and delivery of youth-friendly services; provision of both comprehensive PMTCT services and safe adult-male circumcision in community health facilities; and ability of government and partners to respond more effectively to HIV and AIDS in the workplace.

64. UN Partners include: UNFPA, UNICEF, WHO, UNAIDS, ILO. National partners include: MOH, NAC, MOET, MGYSR, NDSO, MOPS, CHAL and other CSOs.

65. Outcome 10: By 2017, persons living with HIV have access to and benefit from the integrated service delivery that includes nutrition support, ART and care; and HIV/TB co-infection management. To achieve this, the UN System will help strengthen capacity of: districts and facilities to implement comprehensive treatment, care and support services for adult and children living with HIV; ART service-delivery facilities to integrate nutritional and HBC support in their ART program; effective programs to achieve HLM-treatment targets; and livelihood interventions that reach and link ART and TB clients.

66. UN Agencies responsible for delivery of this outcome will be: WHO, UNICEF and WFP. Major national partners will be MOH and CSOs.

Programme Strategy & Implementation

67. The main strategic approach to implement the LUNDAP is National Execution through government ministries and civil-society organizations. Annual Work Plans (AWPs) clearly define key, relevant annual results, activities, and budget. AWPs will form agreements between the UN agencies and their partners to achieve expected results – and provide the resources to do so. To harmonize and reduce overhead costs for programme partners, UN Agencies and their partners will use only the signed AWPs to implement programmatic initiatives, to the extent possible. Implementing partners will sign the AWPs to confirm their commitment to carry out the activities detailed in the AWP, and the relevant Agency will commit to provide the needed financial, technical and material support.

68. Central to LUNDAP is the principle of joint programming. This invites agencies to work together toward common national priorities, needs and LUNDAP results, with their expected contributions clearly defined. Facilitators for this joint work are the Program Management Team (PMT) and the Cluster Working Groups.

69. To the extent possible, UN agencies will develop joint programs that reflect complementarities and support synergy among UN agencies to work collectively within the framework of national development priorities. Joint programmes will be represented by a set of activities, contained in a common work plan and related budget, involving two or more UN Agencies and national partners. Each joint programme will have its own lead UN agency, based on the comparative advantage, human-resource capacity, and mandate of that agency. Joint programmes will allow for effective, efficient interventions through joint needs-assessments, missions, implementation and monitoring.
5. PROGRAMME MANAGEMENT AND ACCOUNTABILITY ARRANGEMENT

70. Several coordination structures will guide, deliver and monitor the implementation of LUNDAP. Coordination will be carried out on two levels: a) Internal UN coordination; and b) UN coordination with partners. The organogram below summarizes the different levels of coordination and its various mechanisms:

Figure 2: Coordination Mechanism

71. The LUNDAP will be nationally executed under the overall co-ordination of the Ministry of Development Planning. Government Ministries, NGOs, and UN system agencies will implement programme activities. The LUNDAP will be made operational through the development of Annual Work Plans and/or Project Documents which describe the specific results to be achieved and will form an agreement between the UN system agencies and each implementing partner on the use of resources. To the extent possible the UN system agencies and partners will use the minimum documents necessary, namely the signed LUNDAP and signed AWPs/project documents to implement programmatic initiatives. However, as necessary and appropriate, project documents can be prepared using, inter alia, the relevant text from the LUNDAP and AWPs/project documents2.

72. The UN will coordinate its programmatic and operational activities through a number of structures. Annex provides detailed Terms of Reference for the various teams.

---

2 In the case of UNDP, the Government Coordinating Authority will nominate the Government Co-operating Agency directly responsible for the Government’s participation in each UNDP-assisted AWP. The reference to “Implementing Partner(s)” shall mean “Executing Agency(ies)” as used in the SBAA. Where there are multiple implementing partners identified in an Annual Work Plan, a Principal Implementing Partner will be identified with the responsibility to convene, co-ordinate and overall monitor (programme and financial) all the Implementing Partners identified in the AWP. This will ensure that inputs are provided and activities undertaken in a coherent manner, to produce the desired AWP results.
73. **The UN Country Programme Steering Committee** will both provide effective overall guidance and leadership for all UN activities, and ensure that UN interventions are closely aligned to the national priorities of the Kingdom of Lesotho. The Steering Committee will be co-chaired by the Resident Coordinator (RC) and the Minister of Development Planning. The Steering Committee will be responsible for providing strategic guidance in the areas of:

- Policy issues
- Programme design and delivery
- Resource mobilization and allocation
- Monitoring and evaluation
- Strategic partnerships

74. **The United Nations Country team (UNCT):** Under the leadership of the Resident Coordinator, the UNCT guides the strategic development and management of the LUNDAP. Specifically, the UNCT will provide overall guidance in how to plan, implement, monitor and evaluate the LUNDAP, and ensure that results are not only achieved, but adhere to the Global principles, Code of Conduct and to the LUNDAP itself. The Steering Committee and UNCT are empowered to make decisions dealing with the programmatic and operational aspects of the LUNDAP, based largely on recommendations from the technical teams.

75. **The Programme Management Team (PMT)** is entrusted to coordinate, guide and spearhead the programme planning, implementation, monitoring and evaluation processes. The PMT will be supported by the Cluster Working Groups and Cross-sectoral task forces.

76. **Operations Management Team (OMT).** *Delivering as One* presents the optimal opportunity to harmonize and simplify management practices, both among participating UN agencies and between the UN and the Government – pursuant to the Paris Declaration. The existing OMT, with its key operations technical staff from resident UN agencies, will be responsible for this task.

77. **The 8 Cluster Working Groups (CWGs)** are assigned to guide, coordinate and oversee the planning, implementation, monitoring and evaluation of their respective LUNDAP outcomes. When needed, the CWGs may also establish – and determine the modalities of – flexible, issue-oriented task teams to work in a consultative and participatory manner.

78. **The UN Communications Group (UNCG)** will ensure a cohesive, integrated approach to communication in the context of UN Reform. It seeks to strengthen inter-Agency cooperation in communications and will promote the UN’s work.

79. **The Planning, Monitoring and Evaluation Task Team (M&E TT)** will provide oversight and support for the planning, monitoring and evaluation of the LUNDAP. The Task Team supports the CWGs and provides technical advice to the UN Country Programme Steering Committee through Programme Management Team (PMT).

80. As shown in Figure 2 above, the UN will work collaboratively with its external partners to ensure strategic alignment and programme delivery. In particular, the Government will be involved in UN programming at two different levels:

A. At the Ministerial level: The Minister of Development Planning will hold permanent membership within the UN Country Programme Steering Committee, and will support the UN strategic prioritization and resource allocation. Where relevant, specific Ministers (or their representatives) will be invited to join the Steering Committee and discuss concreted issues related to their Ministry’s mandate.
B. At the technical level within line ministries: Technical counterparts within relevant line ministries will work closely together with the UN Cluster Working Groups, the Communication Group, and the M&E Task Team – as well as with implementing partners to ensure effective delivery of LUNDAP programmes and activities.

Funding and Administrative Arrangements

81. The LUNDAP will be funded by a combination of existing core and non-core resources of participating organizations and the ‘One UN Fund for Lesotho’. Financing of LUNDAP’s unfunded portion will come from resources mobilized by the UN Country Programme Steering Committee and UNCT, and allocated to relevant programmes. One UN Fund for Lesotho will be operated based on the pass-through arrangement as per the UNDG Joint Programme Guidelines. As per the Terms of Reference for the One Fund, the Multi-Partner Trust Fund (MPTF) office of UNDP will serve as Administrative Agent for the Fund.

82. For the UN ExCom Agencies committed to applying the Harmonized Approach to Cash Transfers (“HACT”), paragraph 84 to 88 will apply.

83. All cash transfers to an Implementing Partner are based on the Annual Work Plans agreed between the Implementing Partner and the UN Agencies. Cash transfers for activities detailed in AWPs can be made by the UN Agencies using the following modalities:
   a) Cash transferred directly to the Implementing Partner: a) Prior to the start of activities (direct cash transfer), or b) After activities have been completed (reimbursement);
   b) Direct payment to vendors or third parties for obligations incurred by the Implementing Partners on the basis of requests signed by the designated official of the Implementing Partner;
   c) Direct payments to vendors or third parties for obligations incurred by UN agencies in support of activities agreed with Implementing Partners.

84. Direct cash transfers shall be requested and released for programme implementation periods not exceeding three months. Reimbursements of previously authorized expenditures shall be requested and released quarterly or after the completion of activities. The UN Agencies shall not be obligated to reimburse expenditure made by the Implementing Partner over and above the authorized amounts.

85. Following the completion of any activity, any balance of funds shall be reprogrammed by mutual agreement between the Implementing Partner and the Agencies, or refunded.

86. Cash transfer modalities, the size of disbursements, and the scope and frequency of assurance activities may depend on the findings of a review of the public financial management capacity in the case of a Government Implementing Partner, and of an assessment of the financial management capacity of the non-UN Implementing Partner. A qualified consultant, such as a public accounting firm, selected by the UN Agencies may conduct such an assessment, in which the Implementing Partner shall participate.

87. Cash transfer modalities, the size of disbursements, and the scope and frequency of assurance activities will be established in the course of programme implementation based on the findings of programme monitoring, expenditure monitoring and reporting, and audits.

88. Each UN agency head will be accountable to their Executive Head or governing body for resources received through their own organisation. Each UN organization is solely subject to
the external- and internal-audit procedures laid down in each agency’s financial regulations, rules and procedures. Should HACT be used, it is subject to the standard HACT procedures – e.g. macro- and micro-assessments.

**Reporting**

89. UN Agencies will be expected to follow both their own reporting policies and procedures, and the UNDG-approved Standard Operational Format and Guidelines for Reporting Progress on LUNDAP. At the end of each year, Cluster Working Groups will prepare progress reports that the RC Office will consolidate and present at the LUNDAP Annual Review Meeting. After the Review Meeting, the RC Office will prepare an Annual Review report that incorporates input and recommendations from that meeting. The RC Office will distribute these reports to relevant stakeholders.

90. The RC Office, with the support of the UNCT, will produce a report to the national authorities at least once during the LUNDAP cycle. This report will compare the actual progress made with the anticipated results, using the standard operational format.

91. As for UN Agencies receiving funding from One Fund under the Pass Through modality, each Agency is expected to provide financial and narrative reports to the Administrative Agent. The Administrative Agent will in turn prepare consolidated narrative progress and financial reports. Then, after UNCT approval, the Resident Coordinator will provide these consolidated reports to each donor that has contributed to the Fund Account. This will be done according to the timetable established in the Administrative Arrangement.

**6. RESOURCES AND RESOURCE-MOBILISATION STRATEGY**

92. The objectives of the Joint Resources Mobilization Strategy to support LUNDAP are:

   a. Harmonize UN Joint Resource Mobilization efforts, while ensuring timely engagement with stakeholders;
   
   b. Enhance coherence and coordination of Joint Resource Mobilization, reducing duplication of efforts;
   
   c. Enhance predictability of funding for UN programmes under the LUNDAP 2013-2017, especially in the case of multi-year funding;
   
   d. Reduce transaction costs for partners and government via more focused engagement, fewer contracts and reports, and less time spent on fund management, including transfers.

93. The UN System through the LUNDAP estimates to contribute US$ 189.3 million of which US$ 78.5 million will be mobilized. The table in the Annex shows the resources available and gaps for the period 2013–2017. It depicts the financial breakdown, according to outcomes per agency, in millions of USD.

94. The UNCT will work together to mobilize resources to cover the funding gap. When possible, funds mobilized jointly will be channelled through the Lesotho One Fund. In the event of emergency, the UNCT may, in consultation with the Government, re-programme resources to better respond to that emergency and its related issues.

95. UN Agencies will continue to be audited internally and separately on how they manage resources and implement their activities, according to their own established rules and
regulations. Where more than one UN agency provides cash to the same Implementing Partner, those agencies will coordinate to jointly monitor the finances and auditing.

96. The UN system agencies will provide support to the development and implementation of activities within the LUNDAP, which may include technical support, cash assistance, supplies, commodities and equipment, procurement services, transport, funds for advocacy, research and studies, consultancies, programme development, monitoring and evaluation, training activities and staff support. Part of the UN system agencies' support may be provided to Non-Governmental and Civil Society system agencies as agreed within the framework of the individual Annual Work Plan and project documents.

97. Additional support may include access to UN organization-managed global information systems, the network of the UN system agencies’ country offices and specialized information systems, including rosters of consultants and providers of development services, and access to the support provided by the network of UN Specialized Agencies, Funds and Programmes.

98. The UN system agencies shall appoint staff and consultants for programme development, programme support, technical assistance, as well as monitoring and evaluation activities. Subject to annual reviews and progress in the implementation of the programme, the UN system agencies’ funds are distributed by calendar year and in accordance with the LUNDAP. These budgets will be reviewed and further detailed in the Annual Work Plans and project documents. By mutual consent between the Government and the UN system agencies, funds not earmarked by donors to the UN system agencies for specific activities may be re-allocated to other programmatically equally worthwhile activities.

99. In case of direct cash transfer or reimbursement, the UN system agencies shall notify the Implementing Partner of the amount approved by the UN system agencies and shall disburse funds to the Implementing Partners within two weeks.

100. In case of direct payment to vendors or third parties for obligations incurred by the Implementing Partners on the basis of requests signed by the designated official of the Implementing Partner; or to vendors or third parties for obligations incurred by the UN system agencies in support of activities agreed with Implementing Partners, the UN system agencies shall proceed with the payment within seven working days.

101. The UN system agencies shall not have any direct liability under the contractual arrangements concluded between the Implementing Partner and a third party vendor. Where the UN system agencies and other UN system agency provide cash to the same Implementing Partner, programme monitoring, financial monitoring and auditing will be undertaken jointly or coordinated with those UN system agencies.
7. COMMUNICATION

102. The UN Communications Group (UNCG) will bring the UN system's communications resources and skills under a common umbrella. The UNCG is composed of the communication officers/focal points from UN Agencies.

103. The UNCG will strengthen inter-agency cooperation in the field of communications, ensuring that messages are consistent. It will promote UN-supported work at the national and/or regional levels through jointly-organized media activities. The UNCG's core objectives will be to communicate with staff, Government, other stakeholders, and the public – especially through Lesotho's media. The efforts should maintain the UN system's visibility, support policy advocacy and resource mobilization, and inspire action that promotes development.

104. Using a two-way flow of information method, the UN will achieve a more open dialogue with the Government, other development partners, beneficiaries and the public at large about UN-supported programmes in Lesotho.

105. The Communication Strategy in the Annex will provide the framework for internal and external communication, aimed to improve and increase UN visibility and foster support among external stakeholders.

8. MONITORING AND EVALUATION

106. Monitoring and evaluation are integral parts of the LUNDAP and will follow the standard requirements and procedures set out in the United Nations Development Group (UNDG) guidelines. To this end, a LUNDAP M&E plan has been developed to ensure accountability, transparency and monitoring of progress and achievements of results against LUNDAP outcomes and related outputs. The LUNDAP will utilize Government information-management systems and databases to monitor LUNDAP indicators for which data are available. The LUNDAP M&E framework includes tools and systems to monitor UN support aligned to national M&E systems. It will support the national M&E systems for data collection, quality assurance, and coordination of results planning, reviews and reporting.

107. While the LUNDAP is intended to bring about coherence, simplification and reduced transaction costs, where appropriate and necessary, UN agency-specific monitoring, evaluation and reporting obligations will be applied to governing bodies and donors. However, UN agencies will strive to harmonize programme monitoring and minimize reporting outside the Delivering as One framework.

108. The Government and participating UN agencies agree on the following general procedures to monitor, review, evaluate, transfer cash, assure quality and audit.

a. The UN Country Programme Steering Committee will function as the main mechanism that oversees the monitoring and evaluation of LUNDAP. Technical assistance of the M&E TT will function as the main mechanism to manage and implement LUNDAP's M&E component. The M&E calendar in the Annex provides schedules on all major LUNDAP M&E activities, including support to nationally planned surveys, baseline studies, databases, frameworks and reviews.

b. The Resident Coordinator's Office, with support of the UNCT, will produce a report to national authorities at least once during the LUNDAP cycle on progress made against
results agreed in the LUNDAP results matrix, using the standard operational format.
c. LUNDAP cluster working groups are entrusted to establish baseline values, compile
output data, review their respective annual work plans, and produce annual thematic
reports. These will feed into the LUNDAP annual-review meetings and progress reports.
d. Each agency is responsible to collect and analyze LUNDAP output results. Agencies will
continually inform the technical working groups of issues and programmatic challenges
that affect the achievement of output results – and will devise corrective measures.

Hence, over the course of the LUNDAP implementation period, the following activities will
be carried out according to UNDG guidelines:

a. CWGs will conduct quarterly progress reviews, in consultation with partners, to provide
updates on activities undertaken, challenges and lessons learned during this period.
b. Under the leadership of the UN Country Programme Steering Committee, annual
reviews will be conducted.
c. Joint field monitoring, HACT, programme-assurance activities, and audit with partners,
will also be conducted.
d. Specific outcome evaluations may be undertaken during the programme cycle to focus
on specific strategic issues that arise during implementation. In case of a single Agency's
activities with a specific counterpart, the individual counterpart's/Agency's monitoring
system will serve as a source of information.

109. One evaluation will be conducted during the LUNDAP programme cycle. The
evaluation will assess progress and impact in achieving outcome results – compared
with national development goals – to enhance the capacity of national development
partners and to inform preparation of the next UNDAF cycle.

Implementing partners’ harmonized approach and audit

110. Implementing Partners agree to cooperate with the UN system agencies for
monitoring all activities supported by cash transfers and will facilitate access to relevant
financial records and personnel responsible for the administration of cash provided by the
UN system agencies. To that effect, Implementing Partners agree to the following:

a. Periodic on-site reviews and spot checks of their financial records by the UN system
agencies or their representatives,
b. Programmatic monitoring of activities following the UN system agencies' standards and
guidance for site visits and field monitoring,
c. Special or scheduled audits. Each UN organization, in collaboration with other UN
system agencies (where so desired and in consultation with the respective coordinating
Ministry) will establish an annual audit plan, giving priority to audits of Implementing
Partners with large amounts of cash assistance provided by the UN system agencies, and
those whose financial management capacity needs strengthening.

111. The audits will be commissioned by the UN system agencies and undertaken by
private audit services.
9. COMMITMENTS OF THE GOVERNMENT

112. The Minister of Development Planning will form part of the UN Country Programme Steering Committee that will be established to guide UN operations in alignment with government priorities. In this regard, Government will invite UN Agencies to its periodic programme reviews and relevant planning meetings, which the UN Agencies are supporting.

113. The Government will support existing sectoral-coordination structures relevant to this LUNDAP. Some of them include annual sector reviews and sectoral technical working groups.

114. The Government will budget for and make monetary or in-kind contributions to the LUNDAP. In-kind contributions may include counterpart government staff, office space, infrastructure, vehicles and equipment required to execute the LUNDAP. The Government will support the UN Agencies’ efforts to raise funds required to meet the needs of this the LUNDAP and will cooperate with the UN Agencies including: encouraging potential donor governments to make available to the UN Agencies the funds needed to implement unfunded components of the programme; endorsing the UN Agencies’ efforts to raise funds for the programme from the private sector both internationally and in Lesotho; and by permitting contributions from individuals, corporations and foundations in Lesotho to support this programme which will be tax exempt for the donor, to the maximum extent permissible under applicable law.

115. Cash assistance for travel stipends, honoraria and other costs shall be set at rates commensurate with those applied in the country, but not higher than those applicable to the United Nations System.

116. A standard Funding Authorization and Certificate of Expenditures (FACE) report, reflecting the activity lines of the AWP, will be used by Implementing Partners to request the release of funds, or to secure the agreement that the relevant UN Agency will reimburse or directly pay for planned expenditure. The Implementing Partners will use the FACE to report on the utilization of cash received. The Implementing Partner shall identify the designated official(s) authorized to provide the account details, request and certify the use of cash. The FACE will be certified by the designated official(s) of the Implementing Partner.

117. Cash transferred to Implementing Partners should be spent for the purpose of activities as agreed in the AWPs only.

118. Cash received by the Government and national NGO Implementing Partners shall be used in accordance with established national regulations, policies and procedures consistent with international standards, in particular ensuring that cash is expended for activities as agreed in the AWPs, and ensuring that reports on the full utilization of all received cash are submitted to the UN Agency within six months after receipt of the funds. Where any of the national regulations, policies and procedures are not consistent with international standards, the relevant UN agency regulations, policies and procedures will apply.

119. In the case of international NGO implementing Partners, cash received shall be used in accordance with international standards in particular ensuring that cash is expended for activities as agreed in the AWPs, and ensuring that reports on the full utilization of all
received cash are submitted to the relevant UN Agency within six months after receipt of the funds.

120. To facilitate scheduled and special audits, each Implementing Partner receiving cash from any of the UN Agencies will provide the UN Agency or its representative with timely access to:
   a. All financial records which establish the transactional record of the cash transfers provided by the UN agency;
   b. All relevant documentation and personnel associated with the functioning of the Implementing Partner's internal control structure through which the cash transfers have passed.

121. The findings of each audit will be reported to the Implementing Partner and the relevant UN Agency. Each Implementing Partner will furthermore:
   a. Receive and review the audit report issued by the auditors.
   b. Provide a timely statement of the acceptance or rejection of any audit recommendation to the relevant UN Agency that provided cash and to the Auditor General.
   c. Undertake timely actions to address the accepted audit recommendations.

122. Report on the actions taken to implement accepted recommendations to the UN agencies and to the Auditor General on a quarterly basis.

10. OTHER PROVISIONS

123. In the event of any significant change in the situation requiring a change in objectives or a need to extend the duration and scope of the planned programme components, the Government will make a formal request to the UN Agencies through the Representatives of each of the UN Agencies and an appropriate amendment to this LUNDAP will be negotiated.

124. In the event of a failure by one party to fulfil any of its obligations under this LUNDAP:
   a. where the defaulting party is one of the UN Agencies, the Government may either (i) suspend the discharge of its own obligations vis-à-vis the defaulting party by giving written notice to that effect to the defaulting party or (ii) terminate the LUNDAP vis-à-vis the defaulting party by giving written notice of sixty (60) days to the defaulting party; and
   b. where the defaulting party is the Government, the UN Agency as to which the Government has defaulted, either alone or together with all other UN Agencies, may either (i) suspend the discharge of its own obligations by giving written notice to that effect to the defaulting party or (ii) terminate the LUNDAP by giving written notice of sixty (60) days to the defaulting party;

125. Any dispute between the government and an Agency shall be resolved in accordance with basic agreements stipulated in Paragraph 17 of this LUNDAP. Any dispute among the UN Agencies shall be resolved exclusively among the UN Agencies through approaches identified in the UNDG approved dispute resolution mechanism.

126. The Government will honour its commitments in accordance with the provisions of the cooperation and assistance agreements outlined in paragraph 17 above. The Government shall apply the provisions of the Convention on the Privileges and Immunities of the United Nations of 13th February 1946 and the Convention on the Privileges and
Immunities of the Specialised Agencies of 21st November 1947 to the Agencies' property, funds, and assets and to its officials and consultants. In addition the Government will accord to the Agencies and their officials and to other persons performing services on behalf of the Agencies, the privileges, immunities and facilities as set out in the cooperation and assistance agreements between the Agencies and the Government.

127. The Government will be responsible for dealing with any claims, which may be brought by third parties against any of the UN Agencies and its officials, advisors and agents. None of the UN Agencies nor any of their respective officials, advisors or persons performing services on their behalf will be held responsible for any claims and liabilities resulting from operations under the cooperation and assistance agreements, except where it is mutually agreed by Government and a particular UN Agency that such claims and liabilities arise from gross negligence or misconduct of that UN Agency, or its officials, advisors or persons performing services.

128. Without prejudice to the generality of the foregoing, the Government shall insure or indemnify the UN Agencies from civil liability under the law of the country in respect of vehicles provided by the UN Agencies but under the control of or use by the Government.

ANNEX 1: LUNDAP Results and Resources Matrix
ANNEX 2: Monitoring and Evaluation Calendar
ANNEX 3: LUNDAP Budget (In US$)
ANNEX 4: Code of Conduct
ANNEX 5: Terms of Reference
## ANNEX 1: LUNDAP Results and Resources Matrix

### LUNDAP Cluster 1: Investment Climate, Manufacturing and Trade and financial services

**NSDP Strategic Objective:** high, shared and employment creating economic growth

**LUNDAP Outcome 1:** By 2017, public and private institutions promote increased investments, manufacturing, trade and financial services and create decent employment in an inclusive and sustainable manner

**Indicator 1:** Number (#) of jobs created for women and youth  
**Baseline:** 1,340 jobs created by UN efforts by 2011 for women and youth  
**Target:** 5,000 jobs created for women and youth

**Indicator 2:** # of people accessing microfinance  
**Baseline:** 16.3% of rural and urban Basotho have no access to financial services  
**Target:** Lack of access to financial services reduced to 15% and 10% in rural & urban areas respectively (50% of Basotho accessing formal insurance services)

**Means of verification (MOV):** National MDG reports, Labour Force Survey, Official statistics and national budget, MSME Surveys

**Lead Agency:** UNDP

### Outputs

**Assumptions:**

- A peaceful and stable national government in the post election period
- The National Strategic Development is endorsed and implemented by the Government
- Predictable government support and matching funding to all projects in this outcome
- Existence of appropriate regional markets to absorb manufactures and services produced by the country
- Continued good will and collaboration from South Africa

**Risks:**

- Unwillingness of the private sector to partner in skills training and entrepreneurship development
- Continued lack of coordination between government ministries, public sector and private stakeholders
- Lack of cooperation from trade unions and workers organisation leading to fragmentation of efforts
- Continued supply side constraints may inhibit growth in development of appropriate value chains
### LUNDAP Cluster 2: Agriculture

**NSDP Strategic Objective:** High, shared and employment creating economic growth

**LUNDAP Outcome 2:** By 2017, National institutions (public and private) deliver quality services for increased agricultural growth and food security

**Indicator 1:** Cereal production per hectare  
**Baseline:** 0.5 tons per hectare in 2001  
**Target:** 1.0 tons per hectare  
**Resilience:** Proportion of farmers that adopt improved technologies/practices resilient to natural disasters

**Indicator 2:** # of agricultural innovations applied by farmers  
**Baseline:** The output of the National Agricultural Research System (NARS) on innovations very low.  
**Target:** NARS leading agricultural innovations by 2017

**Indicator 3:** Policies, programmes, projects and plans shaped by information generated through the M&E system  
**Baseline:** Most policy decisions are not informed by information generated from M&E system  
**Target:** A functional M&E system, which is accountability and utilisation focused established by 2014

**Indicator 4:** # of private sector led agro-industries established  
**Baseline:** 2 in 2012  
**Target:** At least five agro-industries developed by 2017

**MOV:** Reports from the technical departments of the Ministry of Agriculture and other constituents of NARS

**Lead Agency:** FAO

**Assumptions:**
- Government and NGOs support the establishment of National Peace Architecture, in concept and reality.
- Planning and oversight of an NPA will be approached cooperatively by all key actors and that none will seek to co-opt the NPA. Funding can be secured internationally and locally.
- People in government and communities will participate in the training offered and in fact use the facilitators offered.
- Gender and human rights issues remain government priority.
- Non-state actors recognised as one of the key national partners in the development process in Lesotho.

**Risks:**
- Funding for an NPA may not be considered a priority and thus not committed, or that after international funding expires, local financial support will be too weak to continue.
- People may laud a “nice idea” but not in fact avail themselves of the facilitators and skills offered.

**LUNDAP Cluster 4: Skills and Innovation**

**NSDP Strategic Objective:** Enhance the skills base and foundation for innovation

**LUNDAP Outcome 5:** By 2017, learners at ECCD and Primary levels have equitable access to quality and relevant education
**Indicator 1:** Net enrolment rate for each level disaggregated by sex  
*Baseline:* for primary: 80.9% in 2009 (83.2% girls, 78.6% boys)  
*Target:* 85% in 2017 (girls, boys)

**Indicator 2:** # of qualified teachers  
*Baseline:* 58% were qualified in 2009  
*Target:* 75% in 2017

**Indicator 3:** Pupil-qualified teacher ratio at each level  
*Baseline:* for primary: 60:1 in 2012  
*Target:* 55:1 in 2017

**Indicator 4:** % of 3-5 years children in rural areas enrolled in pre-primary  
*Baseline:* 33%  
*Target:* 40%

**Indicator 5:** % of lower quintile children enrolled in home base and other ECCD centres  
*Baseline:* 0  
*Target:* 20%

**Indicator 6:** % increase of learning outcome (SACMEQ: reading and maths to above 500 SACMEQ III mean Score)  
*Baseline:* 467  
*Target:* Above SECMEQ mean score

**Indicator 7:** Repetition rates  
*Baseline:* 19.4%  
*Target:* 14%

**MOV:** Education Statistical Bulletin

**Baseline:** None  
**Target:** Final year students from Roma and Lesotho National Universities

**MOV:**  
Reports from Roma and LNU. Reports from MTICM.

**Assumptions:**
- There is a political will between key ministries to collaborate to implement IECCD Policy
- Communities, including fathers/men will participate in the IECCD activities and not regard early childhood issues as being to female.
- Early childhood issues and primary education remain government priorities

**Risk:**  
Funding for IECCD policy implementation may not be considered a government priority thereby implementation becomes flawed.

### LUNDAP Cluster 5: Environment, Natural Resources and Climate Change

**NSDP Strategic Objective:** Reverse environmental degradation and adapt to Climate Change

**LUNDAP Outcome 6:** By 2017 Lesotho adopts environmental management practices that promote a low-carbon climate-resilient economy and society, sustains natural resources and reduces vulnerability to disasters.

**Indicator 1:** # of national/sectoral policies and strategies that promote low-carbon, climate resilient economy and society that are adopted

**Baseline:** No national/sectoral policies, strategies and plans specifically reflect low-carbon, climate resilient economy and society aspects in 2011

**Target:** National-level climate change policy in place, and at least three sectors (agriculture, manufacturing, and tourism) reflecting low-carbon, climate resilient economy and society aspects in their policies, strategies and/or plans by 2017

**Indicator 2:** # of national/sectoral policies and plans that promote conservation of natural resources

**Baseline:** Other than the water and forestry sectors, no other sectors have...

**Assumptions:**
- The people who will receive information and education will translate their knowledge into the desired behaviors, like optimal infant feeding, seeking advice from professional health workers when they are sick, reducing their risk to disease causing agents
- The decentralization process which has just begun would have reached a stage where district health management teams have the resources and autonomy to take decisions and implement local plans

**Risk:**
- Heavy rains and floods are likely to damage infrastructure, including health facilities, networks that are essential for service delivery to vulnerable populations

---

**LUNDAP Cluster 7: Social Protection**

**NSDP Strategic Objective:** Improve health, combat HIV and AIDS and reduce vulnerability

**LUNDAP Outcome 8:** By 2017, vulnerable groups have access to adequate and effectively managed (HIV-AIDS, Child and Gender sensitive) social protection system.

**Indicator 1:** National Information System for Social Assistance (NISSA) adopted by the GoL as a single registry for social protection programmes **Baseline:** Pilot National Information System for Social Assistance (NISSA) in place with data for 15 satellite community councils (CCs) in 2011 **Target:** Expand NISSA coverage and capture data for at-least 30 satellite CCs (out of 128 CCs as per old demarcations) using the improved single data collection tool by 2017

**Indicator 2:** % of orphaned and vulnerable children aged 0–17 whose households received free basic external support (e.g. economic support) in caring for the child; % of OVC (aged 0-17) that are in school (UNGASS indicator focuses only on ages 10-14) **Baseline:** 27,000 OVC and 9,915 households received free basic external support (e.g. economic support through CGP)
### Targets: 60,000 OVC and 25,000 vulnerable households will receive free basic external support

**MOV:** DHS, Annual reports, UNGASS Report, Multiple Indicator Cluster Survey (MICS), Special studies (Impact evaluation of CGP, National Information System for Social Assistance); Payment records for the Lesotho Child Grants Programme available with MOSD in MOH.

ANNEX 4: Code of Conduct

Vision

The vision for the One UN in Lesotho is of a unified United Nations presence, which acts, speaks and delivers as one. The overall goal of the One UN Initiative in Lesotho is to improve programme delivery and results through a more coherent, better coordinated, funded and managed UN. This overall goal will guide all decisions taken by the UN Country Team (UNCT) to move the reform agenda forward.

With the above vision in mind, the UNCT will encourage and promote an UNDAF Code of Conduct with the following Core Management Principles as outlined below.

Core Management Principles

- **Transparency and accountability**: The UNCT in Lesotho will work to enhance transparency and accountability at all levels of decision-making, both within and among individual organizations and in relation to commitments to the UNCT and the cooperation agreements outlined with the Government of Lesotho.

- **Integrity and ethics**: The UNCT will strictly adhere to the values of the UN with respect to integrity and ethics.

- **Creativity**: The UNCT shall welcome new ideas, approaches, options and constructive feedback and staff will be encouraged to think “outside the box” to improve the efficiency and effectiveness of the UN system in the delivery of its support to the national development agenda.

- **Team work, respect and trust**: The UNCT will continue to foster an environment where staff members are encouraged to work collaboratively to achieve results and learn from one another – within and across agencies and both at central and decentralized levels. The UNCT will provide an environment that is respectful and courteous of staff, and in which staff can express their opinion without fear of repercussion. The UNCT will place full confidence in its staff members and manage its relationships – within and outside the UN system – in a deliberate, predictable and purposeful way.

- **Participatory management**: The UNCT will continue to strengthen its existing participatory approach to management. An increasing number of decisions will be made collectively to enhance consensus-building and promote a participatory environment.

- **Support of the UN Staff Association**: The UN Staff Association will be supported to be a key player on staff-related processes, particularly in relation to the Delivering as One UN initiative in Lesotho, and the changes that will need to be managed, both collectively and at individual agency level. The UNCT meeting will continue to be a forum for discussion and decision making on issues of wider concern for the UN system.
• **Open communication and timely dissemination of information:** The UNCT will ensure that it maintains and fosters open communication and regular information sharing with all staff members. The UNCT will also maintain open and regular communication with all external stakeholders and partners.

• **Quality performance and oversight:** The UNCT will provide oversight to programme implementation as outlined in the UNDAF 2013-2017, and in the context of the Delivering as One: Operational Plan of the United Nations with a view to increasing efficiency and effectiveness in the delivery of results. It will provide oversight to the mobilisation of resources required as part of the One UN Budgetary Framework in support of programme and operational results. In addition to the UNCT, the Programme Management Team (PMT) and the Operations Management Team (OMT) will be used as fora for participatory decision making and guidance in the areas of programme and operations respectively.

• **Stronger intersectoral linkages to improve programme efficiency and effectiveness:** The UNCT will place strong emphasis on joint programming and agency collaboration in order to improve the synergy between and across programmes and agencies at all levels, and in addition, to ensure a more effective contribution to and impact by UN programmes and interventions to the national development agenda. The UNCT will coordinate UN input within the framework of the Development Partners Consultative Forum in Lesotho and the support of sectoral coordination across all stakeholders.

• **UNCT support structures:** The UNCT will promote the proactive use of existing UN system-wide mechanisms for peer support, conflict resolution and issue management and individual and collective expression of views and opinions.

• **Realistic planning:** The UNCT will promote the development of more realistic workplans and related annual work schedules, to ensure that staff members are able to deliver quality results in a work-life balanced environment. The UNCT will appreciate the drive for results and commitment of staff members, and will utilise all opportunities and occasions to further support staff motivation with positive and reinforcing feedback. Issues that may challenge the achievement of results will be identified through carefully planned risk assessment and risk management processes.

• **Time management:** The UNCT will promote more effective management of time among officers and managers, in order to instigate an environment where the minimum required time, process and procedure is set in place to achieve results (while maintaining conformity with UN agency standard regulations and work processes).

• **Personal and professional development:** The UNCT will encourage and nurture opportunities for personal and professional growth, both through individual and group learning events as well as through coaching and mentoring processes – as much as possible, through interagency efforts and initiatives. The UNCT will place
particular emphasis on staff wellbeing and will do its utmost to maintain and foster a caring work environment through the expansion of existing UN Cares programmes, peer support activities and other staff support mechanisms.
ANNEX 5: Terms of Reference

Terms of Reference - UN Country Programme Steering Committee in Lesotho

Mandate and purpose
The UN Country Programme Steering Committee (CPSC) provides effective overall guidance and leadership for all UN activities, and ensures that UN interventions are closely aligned to the national priorities in the Kingdom of Lesotho.

Role and Responsibilities

Policy guidance
- Agree on strategic priorities and ensure alignment between national priorities and UN activities.

Programme design and delivery
- Oversee the development and implementation roadmap for the Delivering as One (DaO) process in Lesotho.
- Assess the programme-delivery progress, identify key challenges, and make decisions on the way forward – based on PMT recommendations.

Resource Mobilization and Allocation
- Provide guidance on the resource-mobilization strategy for the One Fund.
- Allocate resources at the component level according to both the strategic development framework and priorities, and the agreed allocation procedures within the One Fund.

Monitoring and Evaluation
- Review progress to implement the LUNDAP and propose corrective measures, where appropriate.
- Oversee an annual evaluation of the priorities, activities and processes of the LUNDAP and One Fund.
- Identify critical issues, review reports on the lessons learned from the Delivering as One process, and advocate for implementation of the recommendations by relevant UN bodies.

Strategic partnership
- Engage in high, country-level discussions on progress towards Delivering as One.
- Ensure effective consultation among the UN, Government and Development Partners.

Role of the RC as Co-Chair of the Steering Committee
- Convene the Steering Committee, according to stipulated working arrangements.
- Ensure that decisions taken by the Steering Committee are in accordance with the regulatory requirements, frameworks and agreements of the Participating Agencies, the Government, and additional development partners.
- Ensure that decisions taken by the Steering Committee are duly recorded and promptly communicated to members of the Steering Committee, including
Participating Agencies, the Government, development partners and Non-Resident Agencies.

- Monitor the implementation of Steering Committee decisions.

Decision-making
The Steering Committee makes decisions by consensus, which shall then be duly recorded. Prior to presenting their position on a significant issue to the CPSC, its UN members must ensure it’s in line with their Agencies’ regulatory requirements – and endorsed internally.

Composition
All UN Heads of Agency are members of the Steering Committee. The Minister of Finance and Development Planning hold permanent membership in the Steering Committee. Additional Ministers may be invited to join the Committee and/or take part in discussions relevant to their Ministry. The UN Country Programme Steering Committee is co-chaired by the Resident Coordinator (RC) and the Minister of Finance and Development Planning. The Resident Coordinator is the representative of all Non-Resident Agencies (NRAs). The Administrative Agent, as well as the Chairs of the Programme Management Team and Operations Management Team, will be ex-officio members of the Steering Committee.

Additional Development Partners will have a maximum of two observer seats in the steering committee, based upon a representation sent by the Development Partner’s Consultative Forum (DPCF) in Lesotho. The UN Resident Coordinator’s office provides secretarial support for Steering Committee functions.

Working arrangements
The Steering Committee will gather twice a year to define strategic priorities and resource allocation, and will render consensus-based decisions. In the exceptional case where a consensus cannot be reached, the Resident Coordinator is empowered to make a final decision. The RC’s office provides secretarial support and will help organize, prepare for and follow-up on meetings.

Review of the Terms of Reference
The Terms of Reference can be reviewed as part of the annual evaluation process and may be amended – should the Committee deem it necessary.

Terms of Reference - Programme Management Team in Lesotho

Mandate and purpose
The Programme Management Team (PMT) provides advisory support to the UN Country Team (UNCT) on inter-agency programmatic issues, and provides guidance to the LUNDAP Cluster Working Groups and Cross-Sectoral Task Forces. It is responsible for proposing recommendations on how to develop and operationalize the LUNDAP.

Role and Responsibilities
With regards to the LUNDAP, the PMT has responsibility to:
- Provide overall programme coordination and technical support to develop, implement and review the LUNDAP.
- Compile programme-progress reports, identify key challenges and develop recommendations for delivering activities, to be submitted and presented at UNCT meetings, based on inputs from the Cluster Working Groups and Cross-Sectoral Task Forces.
• Review critical programme documents to ensure the UN adopts, presents and communicates a holistic approach to programming.
• Provide guidance and support for the effective monitoring of overall progress towards achieving LUNDAP results, while also working closely with the Cluster Working Groups and Planning, Monitoring and Evaluation Task Force.
• Conduct an annual performance review of the Cluster Working Groups.
• Review the evaluation reports provided by the Cluster Working Groups and Planning and M&E Task Force and submit to the UNCT for approval.

With regards to the 'UN One Fund in Lesotho,' the PMT has responsibility to:
• Review proposals and provide recommendations to the Country Programme Steering Committee, regarding resource-allocation for projects, according to allocation procedures agreed to in the One Fund.

Role of the PMT Chair
• Convene meetings of the PMT.
• Coordinate inputs from team members, and ensure follow-up on actions, when required.
• Liaise with the RCO to receive strategic input from Non-Resident Agencies.
• Present monthly reports and recommendations on programmatic activities to the UNCT.
• Coordinate regular meetings with the Cluster Working Group conveners.

Composition
The PMT is composed of the Deputies (or equivalent representatives) from the Resident Agencies in Lesotho. The Resident Coordinator’s Office is the representative of the Non-Resident Agencies.

Working arrangements
The PMT meets at least once a quarter, or as required, to carry out its duties. The Chair may call a special meeting, if required. The Resident Coordinator’s Office acts as PMT Secretariat.

Terms of Reference - Operations Management Team

Mandate and purpose
The Delivering as One initiative presents the optimal opportunity to harmonize and simplify management practices, among participating UN agencies and between the UN and the Government. The Operations Management Team (OMT) provides guidance, recommendations and management support to the UNCT on operational matters.

Role and Responsibilities
• Identify, assess and plan annual OMT activities. The planning process will also identify relevant operational activities, submit recommendations to the UNCT, and implement interventions – such as those related to common premises and services.
• Manage implementation of the approved Work Plan throughout the year. These activities will be undertaken in an open, transparent manner, with broad Agency participation.
• Establish Technical Task Forces, where required, to accomplish Work Plan-related tasks and activities. The OMT will decide membership, based on relevant skills and competencies.
• Submit to the UNCT a quarterly progress report with updated status of the annual work-plan.

**Role of the OMT Chair**
- Convene meetings of the OMT.
- Coordinate input from team members, and ensure follow-up on action, when required.
- Liaise with the RCO to receive strategic input from Non-Resident Agencies.
- Monitor implementation of the work-plan.
- Attend UNCT meetings and present progress reports on operational matters.

**Composition**
The OMT consists of key operations technical staff from resident UN Agencies. The OMT may co-opt other staff members from the participating Agencies to serve as OMT members, or as members of specific, technical taskforces. The OMT Chairperson shall be appointed by the Resident Coordinator, and shall attend UNCT meetings.

**Working arrangements**
The OMT will meet monthly, plus hold additional special-purpose meetings when needed.

**Terms of Reference - UN Communications Group Lesotho**

**Mandate and purpose**
The UN Communications Group (UNCG) has responsibility to ensure a cohesive, integrated approach to communications in the context of UN Reform. It aims to strengthen cooperation and coordination of the United Nations in Lesotho through improved communication. It will strengthen inter-Agency cooperation in communications and increase the UN media profile nation-wide. Group members will meet regularly to share information on agency-specific initiatives, discuss UN-wide strategies, and coordinate implementation of joint activities.

**Role and Responsibilities**
- Promote a coherent image of the UN, and also advocate for the concept of ‘One UN,’ collectively or individually, on behalf of the Resident Coordinator’s Office (RCO).

- Develop a common UN Communication Strategy in close collaboration with the RCO and UN Country Team (UNCT). The UNCG and UNCT should review this strategy annually.

- Establish a work-plan based on the communication strategy, including activities such as regular meetings, press releases, calendar of media and public events, field-missions for media, radio & TV programmes, electronic newsletter, UN System Information kit, website, common observances of important dates and special occasions and reporting.

- Identify and implement new, creative mechanisms to communicate to staff and external stakeholders the many ways in which the UN in Lesotho is “Delivering as One.”

- Facilitate communication and exposure of the UN in Lesotho by organizing joint field missions for local media, to showcase coordinated UN System activities in
specific areas; produce joint press releases and circulate progress reports to key stakeholders.

- Inform the RC and UNCT of significant national/international media events.
- Provide advice and recommendations to the UNCT on how to better communicate strategic policies and operational issues.
- Report annually to the RC on all UNCG activities. The report should be forwarded to the UNCG secretariat at UN Headquarters, shared with all UNCG members and posted on the UNCG website.

**Composition**
The UNCG will be composed of UN Communication Focal Points from UN Agencies, as appointed by the Resident Coordinator’s Office (RCO). The RCO will serve as UNCG Chair provide secretarial support to the UNCG, and monitor implementation of its work-plan.

**Working arrangements**
The UNCG will meet monthly, plus may hold additional special-purpose meetings as needed.

**Terms of Reference - Planning, Monitoring and Evaluation Task Force**

**Mandate and purpose**
The Planning, Monitoring and Evaluation Task Force is responsible to provide oversight and support for planning, monitoring and evaluation. The Task Force will provide technical advice to the UN Country Programme Steering Committee, Programme Management Team (PMT) and Cluster Working Groups (CWG) to monitor and report on results, and carry out targeted process evaluations.

**Role and Responsibilities of the Task Force members**

- Provide oversight and technical support to monitor and evaluate the LUNDAP, including guidance on indicator selection and revision; and sharing best practices and tools.
- Develop and conduct M&E activities, including: quality assurance, situation monitoring and analysis, performance monitoring, and develop online tools to track and manage knowledge.
- Support the Cluster Working Groups to monitor, track and report on activities, progress and contributions to outcomes and outputs.
- Modify the LUNDAP M&E Calendar on a regular basis.
- Support the Country Programme Steering Committee to evaluate projects and programmes for allocation of resources within the One Fund.
- Work with other M&E Task Forces for “Delivering as One” pilot countries, to share experiences and lessons learned.

**Role of the Chair of the Task Force**
• Convene meetings of the Task Force.
• Coordinate input from team members and ensure follow-up on actions, when required.
• Liaise with the RCO to receive strategic input from Non-Resident Agencies.
• Monitor implementation of the work-plan.

Composition
The Task Force is composed of M&E focal points from the Cluster Working Groups, and specific agencies. The Chair is nominated by the RCO.

Working arrangements
The Task Force may meet as often as necessary to carry out its responsibilities (minimally, on a monthly basis). The Chair of the Task Force sits in UNCT meetings, when required; develops recommendations on individual agency and UN system M&E issues; then reports to the UNCT and Heads of their respective Agencies.

Terms of Reference - Cluster Working Groups in Lesotho

Mandate and Purpose
The four Cluster Working Groups serve as the coordination mechanism to enable the development, implementation, quality, coherence and consistency of programme activities specified in the LUNDAP.

Role and Responsibilities of the Cluster Working Group members
• Develop and implement programme activities outlined in the LUNDAP, and ensure the alignment of time-frames to implement activities across Agencies.

• Develop monthly reports on programmatic activities to be submitted to the PMT.

• Support UN participation in policy dialogue, when required, by developing policy briefs in specific thematic areas.

• Develop project proposals for approval and budgetary support to the Country Programme Steering Committee.

• Prepare consolidated planning documents for their associated outcome areas.

• Liaise with the cross-sectoral task forces as required.

• Collaborate with the Planning, Monitoring and Evaluation Task Force to review and design LUNDAP Monitoring and Evaluation indicators; monitor the progress of programmes; and provide updated LUNDAP reports and recommendations to the PMT.

• Advise and support the UNCT to create a unified strategic-planning framework by helping to identify potential areas for joint programming and/or programmes.

• Recommend to the UNCT a new task force to support programme implementation.
Role of the Conveners of the CWGs
Each Outcome Working Group has a designated convener, selected by the RCO, with the responsibility to:

- Organize meetings of the CWGs.
- Coordinate input from team members, and ensure follow-up on actions, where required.
- Liaise with the RCO to receive strategic input from Non-Resident Agencies.
- Meet monthly with the PMT to present and discuss progress reports.

Composition
The CWGs are co-chaired by two designated UN Agencies, at least one of which acts as a lead agency for the relevant outcome area. The CWG should be composed of at least one representative from each Agency involved with delivering programmes in that outcome area. The CWGs are free to invite donor or government counterparts to their meetings.

Working arrangements
The Cluster Working Groups meet on a quarterly basis – and whenever necessary.
